

ShoreTel Connect **MOBILE APP**

STAY CONNECTED AT ALL TIMES: MOBILE SOLUTIONS FOR THE MODERN WORKER

Bring ShoreTel Connect with You Wherever You Go

Save costs and eliminate the need for a desk phone with ShoreTel Connect for iOS and Android. The ShoreTel Connect mobile app brings together all of the call handling and directory features of your ShoreTel desk phone, plus collaboration tools. Conferencing, video calling, instant messaging and online meetings are easy from everywhere.

With the mobile app, you can use your personal device without utilizing your carrier minutes. Calls are received and sent through your ShoreTel office number so you never have to give your personal cell number and can quickly access your personal and ShoreTel contacts.

THE CONNECT MOBILITY APP INCLUDES:

- **Today Screen:** Easily view upcoming events and join meetings in one click. Our mobile app eliminates complicated dial-in numbers and passcode entries for ShoreTel, GoToMeeting, StarLeaf and WebEx conferences.
- **Wi-Fi/Cellular Call Handover:** Ensure your reception is always strong and avoid cell data roaming charges while traveling with call handover.
- **Collaboration:** Benefit from Connect CLOUD's instant messaging and peer-to-peer video features while you're on the go.
- **Security:** SRTP security for both voice and UC signals, even in public hotspots.

GETTING STARTED

Authorisation for mobile services is provided by your system administrator through the ShoreTel Connect Portal. Once users are authorised, they can easily download the ShoreTel Connect mobile app from their iOS or Android app store.
